

Strong and Minimalist

Impression Rail is an aluminum system with superior strength and a minimalist design. This profile welcomes the outdoors with clean lines and unobstructed views. It can be designed with aluminum posts for a traditional look or composite post sleeves for a mixed-material design.

- Composite post sleeves and top rail can be added to this profile for a custom look
- Safely runs up to 10' without a post interruption
- 2" x 2" or 3" x 3" aluminum posts in multiple heights
- 2" x 2" over the post option available for a continuous look
- Rectangular aluminum balusters
- Fast and intuitive installation with tension fit balusters
- Secure and strong
- Low-maintenance powder coat finish available in Black and Bronze (AAMA 2604)
- No special tools required for installation
- 3" x 3" commercial post option available

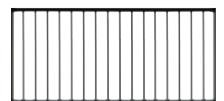

TOP RAIL SIZE: 1.8" X 1.6"
